

Multiplication problem solving.

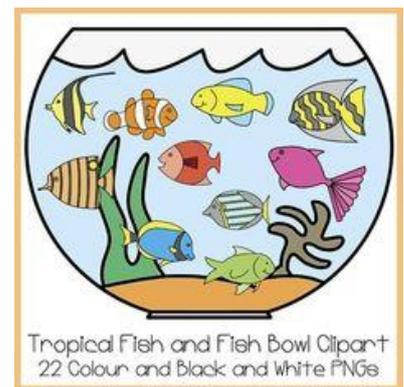

You can draw the problems to help you.

Make sure you write your multiplication number sentence.

1. There are 5 sausages in a pan.
How many sausages in 2 pans?

2. There are 10 fish in a tank.
How many fish in 3 tanks?

3. There are 8 pairs of wellies.
How many wellies altogether?

4. Each plate has 5 cakes on it.
How many cakes on 4 plates?

5. There are 10 flowers in a bunch.
How many flowers would there
be in 4 bunches?

Extra challenge.

Gavin is counting bananas.

Can you spot his mistake?
