

Year 1 Arrays.

Fluency.

Count in 2s, 5s or 10s to find the total in each array.
Write the total in the box.

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} = \underline{\quad}$$

Challenge

Draw an array to show: 2×7

5×3

Reasoning and Problem solving.

Make sure you write your multiplication number sentences.

Toby and Lilly are writing number sentences to describe the array.

Toby

$$4 + 4 + 4 + 4 + 4 = 20$$

Lilly

$$5 + 5 + 5 + 5 = 20$$

Who do you agree with? Explain why.

Jenny makes an array but stops.
She has finished her first row.
Can you complete her array?

Can you make an array using objects around your house and write 2 multiplication number sentences to go with it?
