

Fractions of an Amount

1. Explore how to fit the hexagons together by matching the calculation to its answer.

2. You are locked in an escape room! To escape, find possible fractions for the keypad by using the clues.

I need to find a fraction of 300.
The answer is between 210 and 260.
The answer is a multiple of 5.

Find 5 fractions of 300 that would give this answer. Each fraction must have a different denominator.

1	2	3	CANCEL					
4	5	6	CLEAR					
7	8	9	ENTER					
	0
