$\qquad$

## Division Models

Divide the objects into indicated groups and write the division sentences.

1) Divide into groups of 2.

2) Divide into groups of 5 .

3) Divide into groups of 6 .

4) Divide into groups of 3 .

## In $\Omega \Omega \Omega \Omega$ []$^{\div} \div$

5) Divide into groups of 7 .

##  $\square \quad=$

6) Divide into groups of 4 .

$\qquad$

Divide the objects into indicated groups and write the division sentences.

1) Divide into groups of 2.

18 $\div$ $\qquad$ $=$
9
2) Divide into groups of 5 .

3) Divide into groups of 6 .

$$
\begin{gathered}
24 \\
-13
\end{gathered}
$$

4) Divide into groups of 3 .

5) Divide into groups of 7 .

6) Divide into groups of 4 .
