

Reception and Year 1.

Today we are going to thinking about periods of time we measure on a calendar.

Every morning in Wrens we do our calendar when we discuss the season, month, day of the week and weather.

Please click on the links below to some songs the children are familiar with relating to these things.

Activity – Reception and Year 1.

Today we are going to be thinking about the 12 months of the year.

I would like you to make a birthday calendar for your family showing the 12 months of the year and when their birthdays are.

You can draw a picture for each month or I have attached a sheet of images if you would like to cut these out instead. Think about what the weather would be like in that month and what events might happen to help you.

Don't forget to write your months on your calendar.
Reception you will need your grown up to help you with this bit. Year 1 you should be able to spell them as we have learnt them in our spellings. Don't forget your capital letters!

Activity - Year 1 only.

Complete the attached challenge sheet on the days of the week.
