

Subtraction crossing 10 Problem solving - easier.

Subtraction Crossing 10 1

1a. Rex says,

Write the calculation to match.

$$\square - \square = \square$$

PS

Subtraction Crossing 10 1

1b. Kat says,

Write the calculation to match.

$$\square - \square = \square$$

PS

2a. True or false?

$$15 - 6 = 9$$

Use the ten frames to prove your answer.

R

2b. True or false?

$$14 - 7 = 3$$

Use the ten frames to prove your answer.

R

3a. Ava is using a part-whole model to subtract.

$$12 - 2 = 10 \rightarrow 10 - 6 = 4$$

Is she correct? Explain your answer.

R

3b. Josh is using a part-whole model to subtract.

$$13 - 3 = 10 \rightarrow 10 - 2 = 8$$

Is he correct? Explain your answer.
