

Useful maths websites/activities

TTRS - <https://trockstars.com/>

Prodigy - <https://www.prodigygame.com/> (The children have a log in for this. If they can't remember it, message me anytime on J2e and I can send it to you)

Hit the button - <https://www.topmarks.co.uk/maths-games/hit-the-button> Great for practising number bonds and times tables

Primary games arena - <https://primarygamesarena.com/> So many different games to play!

Maths zone - <https://mathszone.co.uk/> Another website with so many different games to choose from covering all areas of maths

Hidato puzzles - <https://www.mathinenglish.com/puzzleshidato.php?pstid=801>
These are logic puzzles where you have to create a number line where each consecutive numbers touch on one of their edges

Magic squares - <https://www.math-salamanders.com/magic-square-worksheets.html> These are great for addition and subtraction skills

BBC bitesize - <https://www.bbc.co.uk/bitesize> The BBC have covered all subjects and these lessons will still be available during the holidays if you want to go over anything again.

Of course, not everything has to involve a computer. Any practical things that you can do would be amazing. Cooking, planning a meal and working out costs, planning day trips (entrance fee, how many miles, etc.), all of these things will help to keep your children's maths brains ticking over!
