Properties of solids, liquids and gases

State of matter	Is it compressible?	Can it flow?	What happens to its shape in a container?
Solid			
Liquid			
Gas			

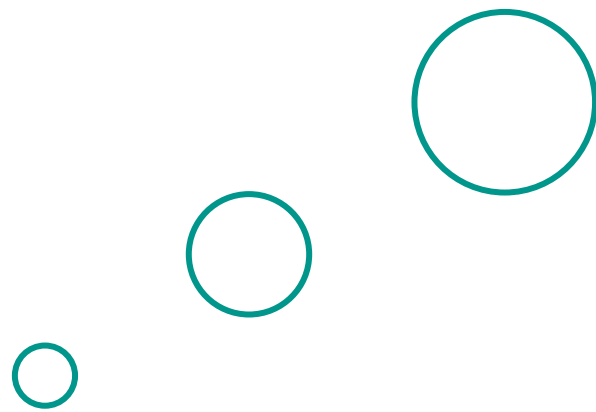

Solid, liquid or gas?

I am not compressible but I can flow. What am I?

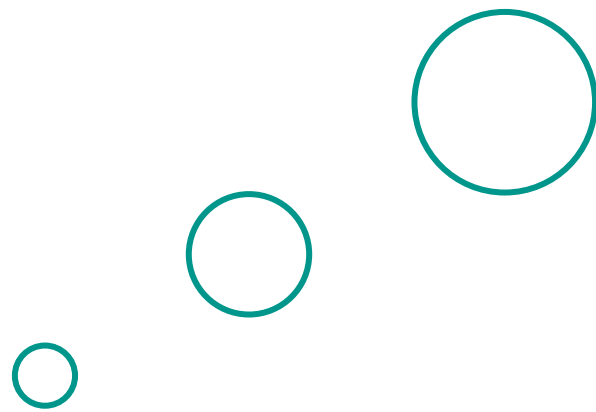

Solid, liquid or gas?

I am compressible and I can flow. What am I?

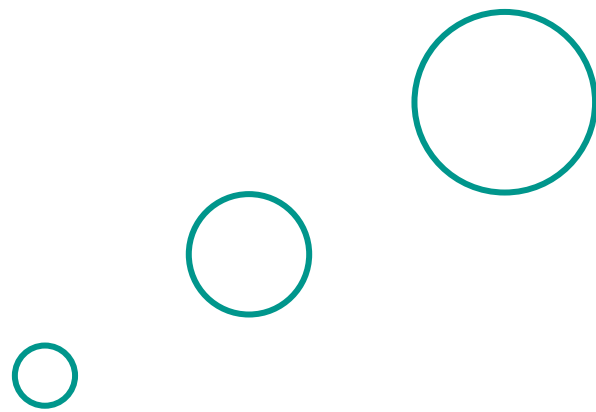

Solid, liquid or gas?

I am not compressible and I have a fixed shape. What am I?

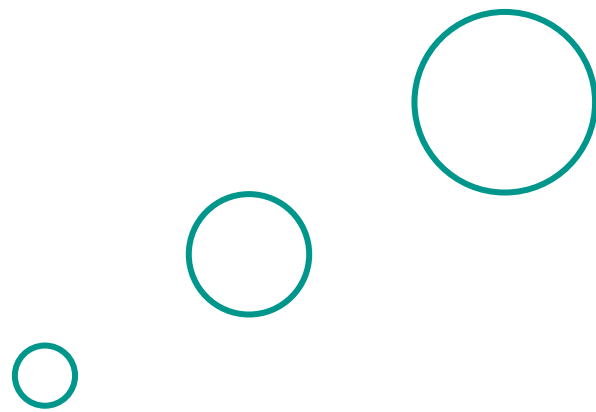

Solid, liquid or gas?

I take the shape of the bottom of the container I am in. What am I?

Solid, liquid or gas?

I completely fill whatever container I am in. What am I?

Solid, liquid or gas?

Copy and complete the table

Example	Solid, liquid or gas?	Why?
Water in a glass		
Air in a balloon		
A wooden block
