

Easter Bunny Analogue Time Activity

How to complete the activity:

1. Begin by printing the analogue and word time eggs.
2. Cut out all the word time eggs and place them upside down on a table.
3. Take it in turns to select one of these eggs at random.
4. Once chosen, turn the card over, say the time out loud and then, match it to the corresponding analogue clock on the other sheet.
5. Continue until all the word time eggs have been placed correctly on top of the analogue eggs.
6. This activity can be repeated several times to help reinforce understanding of analogue time.

Extension: Can the children explain how they knew which analogue clock matched which time word card? They should be able to give a clear answer about the position of the hands on the clock and how they correspond to the time in words.
