Statement of intent

Abberley Parochial V C Primary School recognises that asthma is a serious but controllable condition and welcomes all pupils with asthma. The school has an Asthma Champion who oversees all aspects of asthma care in school.

This policy sets out how the school ensures that pupils with asthma can participate fully in all aspects of school life including physical exercise, school trips and other out-of-school activities. It also covers how the school enables pupils with asthma to manage their condition effectively in school, including ensuring immediate access to reliever inhalers where necessary.

1. Legal framework

This policy has due regard to all relevant legislation and statutory guidance including, but not limited to, the following:

- Equality Act 2010
- DfE 'Supporting pupils at school with medical conditions'
- Asthma UK 'Asthma at school and nursery'
- DfE 'First aid in schools, early years and further education'

This policy operates in conjunction with the following school policies:

- Complaints Policy Supporting Pupils with Medical Conditions Policy
- First Aid Policy

2. Roles and responsibilities

The governing body has a responsibility to:

- Ensure the health and safety of staff and pupils is protected on the school premises and when taking part in school activities.
- Ensure that this policy, as written, does not discriminate against any of the protected characteristics, in line with the Equality Act 2010.
- Handle complaints regarding this policy as outlined in the school's Complaints Policy.
- Ensure this policy is effectively monitored and updated.
- Report any successes and failures of this policy to the headteacher, members of school staff, local health authorities, parents and pupils.
- Provide indemnity for teachers and other members of school staff who volunteer to administer medicine to pupils with asthma in need of help.

The headteacher and the school Asthma Champion has a responsibility to:

- Create and implement this policy.
- Ensure this policy is effectively implemented and communicated to all members of the school community.
- Arrange for staff to receive training on supporting pupils with asthma. Ensure all supply teachers and new members of staff are made aware of this policy and provided with appropriate training.
- Monitor the effectiveness of this policy.
- Ensure that first aiders are appropriately trained regarding asthma, e.g. supporting pupils to take their own medication and caring for pupils who are having asthma attacks.
- Delegate the responsibility to check the expiry date of spare reliever inhalers and maintain the school's asthma register to a designated member of staff.
- Report incidents and other relevant information to the governing body and LA as necessary.

All school staff have a responsibility to:

- Read and understand this policy.
- Know which pupils they come into contact with have asthma.
- Know what to do in the event of an asthma attack.
- Allow pupils with asthma immediate access to their reliever inhaler.
- Inform parents if their child has had an asthma attack.
- Inform parents if their child is using their reliever inhaler more than usual.
- Ensure pupils with asthma have their medication with them on school trips and during activities outside of the classroom.
- Ensure pupils who are unwell due to asthma are allowed the time and resources to catch up on missed school work.
- Be aware that pupils with asthma may experience tiredness during the school day due to their night-time symptoms.
- Be aware that pupils with asthma may experience bullying due to their condition and understand how to manage these instances of bullying.
- Contact parents and the SENCO if a pupil is falling behind with their school work because of their asthma.

Pupils with asthma have a responsibility to:

- Tell their teacher or parent if they are feeling unwell due to their asthma.
- Know how to gain access to their medication in an emergency.
- Know how to take their asthma medicine, with adult support where necessary.

All other pupils have a responsibility to:

- Treat other pupils, with or without asthma, equally, in line with the school's Behaviour Policy.
- Understand that asthmatic pupils will need to use a reliever inhaler when having an asthma attack and ensure a member of staff is called immediately.

Parents have a responsibility to:

- Inform the school if their child has asthma.
- Ensure the school has a complete and up-to-date asthma record for their child.
- Inform the school of the medication their child requires during school hours.
- Inform the school of any medication their child requires during school trips, team sports events and other out-of-school activities.
- Inform the school of any changes to their child's medicinal requirements.
- Inform the school of any changes to their child's asthmatic condition, e.g. if their child is currently experiencing sleep problems due to their condition.

- Ensure their child's reliever inhaler (and spacer where relevant) is labelled with their child's name.
- Ensure that their child's reliever inhaler and spare inhaler are within their expiry dates.
- Ensure their child has regular asthma reviews with their doctors or asthma nurse (recommended every 6-12 months).
- To provide the school with a Personal Asthma Action Plan at school to help the school manage their child's condition, if provided by the hospital/doctor.

3. Asthma medicines

Asthma inhalers are given to the school to be looked after. Reliever inhalers kept in the school's charge are held in the staffroom in a designated storage area.

Parents will be required to label their child's inhaler with the child's full name and year group. Spare relief inhalers should be available for school on request

Staff will administer the asthma medicines in line with the school's Administering Medication Policy. For pupils who are old enough and/or have sufficient capabilities and independence to do so, staff members' roles in administering asthma medication will be limited to supporting pupils to take the medication on their own.

This policy is predominantly for the use of reliever inhalers. The use of preventer inhalers is very rarely required at school. In the instance of a preventer inhaler being necessary, staff members may need to remind pupils to bring them in or remind the pupil to take the inhaler before coming to school.

4. Emergency inhaler

In line with, Human Medicines (Amendment) (No. 2) Regulations 2014, this permits Abberley Parochial V.C. Primary School to hold emergency salbutamol inhalers. The emergency inhaler should only be used by pupils, for whom parental consent has been received and who have been either diagnosed with asthma or prescribed an inhaler as reliever medication. Parental consent for the use of an emergency inhaler should form part of any pupil with asthma's individual healthcare plan.

When not in use, emergency inhalers are stored in the cupboard in the staffroom out of reach and sight of pupils, but not locked away.

Expired or used-up emergency inhalers are returned to a local pharmacy to be recycled. Spacers must not be reused in school but may be given to the pupil for future home-use. Emergency inhalers may be reused, provided that they have been properly cleaned after use.

In line with the school's Supporting Pupils with Medical Conditions Policy and First Aid Policy, appropriate support and training will be provided for relevant staff, e.g. first aid staff, on the use of the emergency inhaler and administering the emergency inhaler.

Whenever the emergency inhaler is used, the incident must be recorded in the corresponding record of administration and the school's records. The records will indicate where the attack took place, how much medication was given, and by whom. The pupil's parents will be informed of the incident in writing.

The Asthma Champion (Mrs Birch) is responsible for overseeing the protocol for the use of the emergency inhaler, monitoring its implementation, and maintaining an asthma register.

The designated staff member who oversees the supply of salbutamol inhalers is responsible for:

- Checking that inhalers and spacers are present and in working order, with a sufficient number of doses, on a monthly basis.
- Ensuring replacement inhalers are obtained when expiry dates are approaching.
- Ensuring replacement spacers are available following use.
- Ensuring that plastic inhaler housing has been cleaned, dried and returned to storage following use, and that replacements are available where necessary.

5. Symptoms of an asthma attack

Members of staff will look for the following symptoms of asthma attacks in pupils:

- Persistent coughing (when at rest)
- Shortness of breath (breathing fast and with effort)
- Wheezing
- Nasal flaring
- Complaints of tightness in the chest
- Being unusually quiet
- Difficulty speaking in full sentences

Younger pupils may express feeling tightness in the chest as a 'tummy ache'.

6. Response to an asthma attack

In the event of an asthma attack, staff will follow the procedure outlined below:

- Keep calm and encourage pupils to do the same.
- Encourage the pupil to sit up and slightly forwards – do not hug them or lie them down.
- If necessary, call another member of staff to retrieve the emergency inhaler – do not leave the affected pupil unattended.
- If necessary, summon the assistance of a member of suitably trained first aid staff to care for the pupil and help administer an emergency inhaler.
- Ensure the pupil takes two puffs of their reliever inhaler (or the emergency inhaler) immediately, preferably through a spacer.
- Ensure tight clothing is loosened.
- Reassure the pupil.

Staff will not administer any medication where they have not been trained to do so.

If there is no immediate improvement, staff will continue to ensure the pupil takes 2 puffs of their reliever inhaler every two minutes, until their systems improve, but only up to a **maximum of 10 puffs**. If there is no improvement before the pupil has reached 10 puffs:

- Call 999 for an ambulance.
- If an ambulance does not arrive within 10 minutes, the pupil can administer another 10 puffs of the reliever inhaler as outlined above.

Staff will call 999 immediately if:

- The pupil is too breathless or exhausted to talk.
- The pupil is going blue.
- The pupil's lips have a blue or white tinge.
- The pupil has collapsed.
- You are in any doubt.

7. Emergency procedures

Staff will never leave a pupil having an asthma attack unattended. If the pupil does not have their inhaler to hand, staff will send another member of staff or pupil to retrieve their spare inhaler. In an emergency situation, members of school staff are required to act like a 'prudent parent', i.e. making careful and sensible parental decisions intended to maintain the child's health, safety and best interests.

As reliever medicine is very safe, staff will be made aware that the risk of pupils overdosing on reliever medicine is minor. Staff will send another pupil to get another member of staff if an ambulance needs to be called. The pupil's parent will be contacted immediately after calling an ambulance.

A member of staff should always accompany a pupil who is taken to hospital by ambulance and stay with them until their parent arrives. Generally, staff will not take pupils to hospital in their own car unless in exceptional circumstances, e.g. where a pupil needs professional medical attention and an ambulance cannot be procured.

In these exceptional circumstances, the following procedure will be followed in line with the First Aid Policy:

- A staff member will call the pupil's parents as soon as is reasonably practical to inform them of what has happened, and the course of action being followed – parental consent is not required to acquire medical attention in the best interests of the child.
- The staff member will be accompanied by one other staff member, preferably a staff member with first aid training.
- Both staff members will remain at the hospital with the pupil until their parent arrives.

8. Record keeping

At the beginning of each school year, or when a child joins the school, parents are asked to inform the school if their child has any medical conditions, including asthma, on their enrolment form.

The school keeps a record of all pupils with asthma, complete with medication requirements, in its asthma register. Parents will be required to inform the school of any changes to their child's condition or medication during the school year.

All emergency situations will be recorded, and staff practice evaluated, in line with the First Aid Policy.

9. Exercise and physical activity

Games, activities and sports are an essential part of school life for pupils. All teachers will know which pupils in their class have asthma and will be aware of any safety requirements.

Outside suppliers of sports clubs and activities are provided with information about pupils with asthma taking part in the activity via the school's asthma register.

Pupils with asthma are encouraged to participate fully in PE lessons when they are able to do so. Pupils whose asthma is triggered by exercise will be allowed ample time to thoroughly warm up and cool down before and after the session.

During sports, activities and games, each pupil's labelled inhaler will be kept in a box at the site of the activity. Classroom teachers will follow the same guidelines as above during physical activities in the classroom.

The school believes sport to be of great importance and utilises out-of-hours sports clubs to benefit pupils and increase the number of pupils involved in sport and exercise. Pupils with asthma are encouraged to become involved in out-of-hours sport as much as possible and will never be excluded from participation. Members of school staff and contracted suppliers will be aware of the needs of pupils with asthma during these activities and adhere to the guidelines outlined in this policy.

10. Monitoring and review

The effectiveness of this policy will be monitored by the asthma champion and the headteacher. Any necessary amendments may be made immediately. The governing body will review this policy annually.

Any changes made to this policy will be communicated to staff, pupils, parents and other relevant stakeholders.

The next scheduled review date for this policy is September 2027.

Pupil allergy/ asthma declaration form

Love, Grow and Flourish Together

Name of pupil			
Date of birth		Year group	
Name of GP			
Address of GP			

Nature of allergy	
Severity of allergy	
Symptoms of an adverse reaction	
Details of required medical attention	
Instructions for administering medication	
Control measures to avoid an adverse reaction	

Spare AAI

I understand that the school may purchase spare AAIs to be used in the event of an emergency allergic reaction. I also understand that, in the event of my child's prescribed AAI not working, it may be necessary for the school to administer a spare AAI, but this is only possible with medical authorisation and my written consent.

In light of the above, I provide consent for the school to administer a spare AAI to my child.

Spare Inhaler

At Abberley Parochial VC Primary School, we keep a Ventolin Inhaler (Salbutamol) and a spacer device which is available in emergency situations. We are able to provide these to pupils who have forgotten their inhaler or are undergoing a severe attack, where the spacer may be more effective in administration.

The school asks that you give staff permission to administer emergency treatment as indicated below by signing the section below.

In light of the above, I provide consent for the school to administer a spare AAI to my child.
