

Locating Mountains

Use a map/atlas to label the following mountain ranges in Europe:
Pyrenees, Alps, Carpathians, Apennines, Urals, Balkan Mountains, Caucasus Mountains.

Extension Task:

Research where the highest peaks within Europe are located and label them on your map.

1. What colour are the mountains on your map?

2. How high are the highest peaks in the mountains you labelled in the first part of the task?

Pyrenees _____

Alps _____

Carpathians _____

Apeninnes _____

Urals _____

Balkan Mountains _____

3. Rewrite your list from question 2 in ascending order:

--	--	--	--	--

4. Fill in the table below using a map to get the information.

Mountain Area	Continent	Mountain Name	Height in metres
Andes Mountain		Anconcagua	
	North America		4399
		Mount Everest	
Pyrenees		Pic De Aneto	
Alps			4807
Great Dividing Range	Australasia		2209
		Mount Elbrus	
Ethiopian Highlands			4307
