### Character Snapshot

In chapter 7, Klaus was threatened by one of Olaf's henchmen. Look back in the chapter and find the description of the character. Think about both the henchman's physical characteristics and his personality. Write some of these things down in the box.

Using what you know about the henchman, create a Wanted Poster. Remember to include the character's "name", physical traits and the reason why he is wanted by the law. You may also include a reward.
